

■ Business Flexi on MTN

Introducing Business Flexi, the MTN SIM card ideal for most connected device deployments.

It offers a range of enterprise SIM features you demand, with the SIMcontrol flexibility you have become used to.

What is Business Flexi?

Businesses have a range of SIM options to choose from. Managed Prepaid SIM cards can be a good option for certain use cases due to their lack of contracts, easy activation and deployment, and cost-effectiveness.

However, there can be some challenges, particularly when it comes to IoT and connected device deployments.

SIM expiry due to inactivity or the need for Managed Private APN services demands a full-featured SIM type that still gives the flexibility you need.

SIMcontrol's Business Flexi SIM on MTN offers a solution to these issues.

This business data SIM card comes with short-term contract commitments, no SIM expiry and normal public APN or pooled private APN data options.

It's the perfect prepaid alternative and the best choice for critical connected device deployments.

Why Business Flexi?

Comparison: Business Flexi & Prepaid

Key SIM features	MTN Business Flexi	MTN Normal Prepaid
Term Commitment	Up to 3 calendar months notice (handled by SIMcontrol)	Month-to-month

Supported Networks

Business Flexi offers a range of advantages that make it a great choice for businesses looking to deploy connected devices at scale:

-  **No-long Term Contracts** - Business Flexi SIMs can be instantly disabled at any time, and underlying contracts canceled within a maximum of 3 calendar months. This is particularly useful for businesses that need to scale their SIM deployments up or down fast as their business demands change.
-  **No SIM Expiry** - Business Flexi SIMs won't expire due to prolonged inactivity, a common problem with traditional prepaid SIM cards. As long as it is active on SIMcontrol it will remain active on the network.
-  **Normal or Pooled Data Options** - Business Flexi SIMs offer discounted enterprise prepaid bundles (public APN) as well as pooled (private APN) data options, which can be more cost-effective than traditional prepaid SIMs, especially for SIMs that have high data usage or those with low usage using a central data pool.
-  **Enterprise-Grade Support** – With Business Flexi on SIMcontrol, you get access to advanced Tier-1 technical support unlocked by deep technical network integration.

| WHY SIMCONTROL

SIMcontrol is an advanced SIM management platform for business.

SIMcontrol is network agnostic, and offers a range of competitively-priced mobile connectivity options, including unique products and features not always available directly from mobile networks.

SIMcontrol is a tried and tested platform with more than 12 years of proven success for businesses where reliable mobile network connectivity is critical.

It is ideal for IoT and other connected devices that require reliable 2G, 3G, LTE or NB-IoT cellular connectivity.

SIMcontrol gives companies total control and flexibility with an easy to use secure online data connectivity platform.

KEY BENEFITS

Be in control - Take control of your mobile connectivity with our easy-to-use online SIM management platform. With just a few clicks, you can manage your SIMs, data, and users, and have full visibility into your mobile spend.

Limit your mobile spend - Our platform allows you to cap costs at the SIM level, eliminating the risk of SIM abuse and ensuring that you pay only for what you need, when you need it. No more bill shock or unexpected costs.

Flexibility - We offer unparalleled flexibility, with no contracts or data volume commitments. You can add or remove SIMs as needed, build your own data packages, and manage your mobile connectivity on your terms.

Reliable support and maintenance - With our expert technical team specialized in business mobile connectivity and IoT, you can rest assured that you have reliable support and maintenance whenever you need it. We assist with SIM card supply, provisioning, and activation, so you can focus on running your business while we take care of the rest.

Business Flexi SIM not for you?

Why not check out our other SIM options available on Managed APN, Managed Prepaid, Business Contract or Global Roaming options here.
